SECTION I: GENERAL INFORMATION FOR ALL GRADUATE STUDENTS

Introduction

Welcome to the graduate program at the College of Nursing. For over one hundred years, the University of Iowa has held a leadership position in nursing education, producing the expert clinicians, educators, executives, and scientists who have shaped the nursing profession throughout the nation as well as the State of Iowa. Deans, faculty and staff are pleased that you have chosen to continue your education at Iowa and are eager to help facilitate your time with us as a student.

This handbook is designed to acquaint students with various aspects of the graduate program in nursing at The University of Iowa. It provides a statement of general and specific policies, procedures, and standards related to graduate education in the College of Nursing. Students should be aware that they also are subject to the policies and standards established by the Graduate College which is set forth in the Manual of Rules and Regulations of the Graduate College. Students can obtain an electronic version of Manual of Rules and Regulations of the Graduate College at: http://www.grad.uiowa.edu/graduate-college-manual

Insofar as is reasonably possible, Graduate College regulations are not repeated in this handbook.

Content in this handbook is meant to serve as guidelines for graduate students. From time to time policies or requirements will change during the academic year; these policies will be communicated to all graduate students via their UI e-mail.

All Graduate Students are responsible for knowing the policies and procedures in this Handbook

Nondiscrimination Statement

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information on nondiscrimination policies, contact the Director, Office of Equal Opportunity and Diversity, The University of Iowa, 202 Jessup Hall, Iowa City, IA 52242-1316; 319-335-0705 (voice), 319-335-0697 (TDD), diversity@uiowa.edu.

College of Nursing Philosophy Statement

We, as a community of nurse scholars, believe research, education, and service are the foundation for professional nursing practice. Professional nursing recognizes and addresses the health care needs of a global society, communities and their members. Professional nursing education encompasses a humanistic orientation and a dedication to basic ethical principles. Professional nursing practice is operationalized through diagnosis, intervention and outcome evaluation and the establishment of collaborative relationships with the goal of promoting the health of individuals, families, communities, and populations.
We, as a community of nurse scholars, believe that an expert faculty with varied areas of expertise is required to carry out the educational mission of the college. The faculty is committed to designing and implementing curricula in which students develop critical thinking, decision-making skills, clinical judgment, cultural sensitivity, and professional nursing values in an increasingly complex health care system. Professional nursing practice requires the application of knowledge from nursing science as well as the humanities, and the basic and social sciences.

We, as a community of nurse scholars, believe that communities are enriched by the diversity of human experiences. Our community is built on a foundation of mutual respect in which ideas are shared with civility, differences are celebrated, and actions are guided by decency. We continually strive to admit and educate a diverse student body – as well as to engage a diverse faculty believing that an atmosphere that embraces diversity enhances the educational experience and provides a richer understanding of our world.

We, as a community of nurse scholars, are committed to preparing our graduates to function in leadership roles and to address the political, social, ethical, economic, and policy issues that affect the design and delivery of health care in the state, the nation, and the world. In addition, we believe faculty members work in partnership with students to facilitate achievement of each student’s educational goals. The faculty is accountable to the students served and is responsible for creating an environment that promotes free inquiry and sensitivity to diversity in ideas. Students have a responsibility to be actively involved in the education process; to identify their learning goals, needs, and styles; to become knowledgeable and skilled; to question and propose new ideas; and to use peer, faculty, college and university resources to further their own learning. We believe that learning is a continuous process. Our formal and continuing education programs encourage self-directed learning for life-long professional development, enable the assimilation of new knowledge and new technologies to create and maintain required skills, and promote understanding of the changing environments in which professional nursing is practiced.

We, as a community of nurse scholars, are committed to the development of nursing as an academic discipline through scholarly activities that advance the science of nursing. In our commitment to the science of nursing, we acknowledge the reciprocal relationships between practice, theory and research in knowledge development; value both naturalistic and controlled approaches to inquiry; support both basic and clinical research; encourage interdisciplinary and collaborative research efforts; and promote the translation and dissemination of research findings into practice. As a college within a public university, we are committed to faculty involvement in a wide range of service activities. Faculty members serve as role models for nursing practice, community service, collaborative practice, and health policy development. As members of the university community, faculty contribute to the operations and vitality of the college, the university and the profession.

B. Mission and Goals

Mission

The mission of the College of Nursing is to prepare nurse leaders and to be a forerunner in the discovery, dissemination and application of nursing knowledge. As a state supported higher degree program in nursing, the college is committed to preparing nurse clinicians, scholars, and educators to meet the health needs of the people of Iowa. As part of a research intensive university, the College of Nursing supports its research mission through national and international leadership in innovative educational and practice programs and the generation of new knowledge.

Mission Statement: Graduate Program

Deans and staff of the Office of Student Services strive to assist students in the completion of their educational programs with advising and counseling. In this endeavor we actively undertake to assist and provide resources to faculty and students. Further, it is our goal to furnish the most current and accurate data to administration in the College of Nursing and The University.

C. Standards of Excellence

Graduate students are an integral part of the College of Nursing and are instrumental in helping the College fulfill its mission and reach its goals. Each graduate student is expected to conform to reasonable standards of academic and professional conduct in all activities related to the teaching, research, and service functions of the College and University. Relevant standards include Section III-15 of the University Operations Manual, “Professional Ethics and Academic Responsibility“ (https://opsmanual.uiowa.edu/human-resources/professional-ethics-and-academic-responsibility). We expect that students will represent themselves in a professional manner both within and outside of the College.

Students in graduate study are invited and encouraged to participate in enrichment activities at the College. Throughout the academic year, programs, national speakers and other events occur that contribute to professional development. A number of events of interest also occur outside of the College. Notification of these events is sent via AGNSnet

All such activities, while a noted aspect of graduate training, are to be distinguished from all work for academic credit, i.e., regular course work, seminars, practice, research projects, thesis and dissertation research.

II. Graduate College

A. Overview

Students admitted to the graduate programs in the College of Nursing have been admitted to the Graduate College as well, therefore, graduate students have accountability to the Graduate College as well as the College of Nursing. The Graduate College is located in Gilmore Hall on The University of Iowa campus.

B. Graduate College Policies

Manual of Rules and Regulation of the Graduate College
Graduate students are responsible for the Rules and Regulations established by the Graduate College as well as the protocols, policies, and rules of the College of Nursing. Information about the Graduate College Rules and Regulations is available in the Manual of Rules and Regulations of the Graduate College. Policies concerning academic standing, probation and dismissal are established by the Graduate College and are in the Manual. This manual is available online on the Graduate College website: http://www.grad.uiowa.edu/graduate-college-manual

III. Financial Assistance

Various sources for student support are available. Funds which are under the direct control of the College come from the College of Nursing, the Graduate College, and federally-supported training grants. Other student support may be available from project grants awarded to College of Nursing faculty members, from local agencies or other divisions of the university.

A. For all College of Nursing Graduate Students:

1. Nurse Faculty Loan Program (NFLP):

   The NFLP is a loan cancellation program. Depending on funds availability, this means that up to 85% of an NFLP loan can be canceled if, after graduation, the individual teaches full time in a school of nursing (20-25% is canceled for each year of teaching for up to 4 years). Full-time can be reached by teaching full time, holding part-time positions that add up to full time, teaching and being a preceptor, as well as other combinations. To be eligible to apply for a NFLP loan you need to be a US citizen, full- or part-time student in good standing who plans to teach in a school of nursing. All graduate students who are contemplating a teaching career should apply.

2. Scholarships and Loans

   Scholarships are available through the College of Nursing. Nominations and applications are screened through the Scholarship Committee. A detailed listing of available scholarships is located at the following web site http://www.nursing.uiowa.edu/alumni-friends/scholarships. Each fall and spring semester, notification will be sent that the scholarship portal is open for students to complete the application for scholarships.

   Fellowships and funding opportunities are available from the University of Iowa Graduate College. Please see the following web site for the current listing of Graduate College funding opportunities https://www.grad.uiowa.edu/funding-your-education?portal=current-students

   Low interest loans are available to graduate and undergraduate students through the Office of Financial Aid.

3. Research Assistantships

   Research Assistantships are available for PhD Students. Please see Section IV: Information Specifically for PhD Students.

IV. Graduate Student Policies and Responsibilities

A. Technology and Information Management Literacy Competency
Graduate students at The University of Iowa College of Nursing are expected to meet or exceed the following technology and information literacy competencies.

Technology and information literacy encompasses information, communication, and technology skills necessary to learn and function in a technological healthcare environment.

1. Literacy Goals:
   - Computer literacy – To work more efficiently through the use of computer systems and representative application programs.
   - Communications – To have efficient and timely access to nursing and healthcare information resources, interdisciplinary healthcare professionals, and patients.
   - Information management – To effectively search, retrieve, organize and manage health information using computing and communication technologies.
   - Patient-care Practice – To effectively and efficiently function in healthcare and nursing environments using the computer based patient record and electronic decision support resources.
   - Computer based learning - To effectively use and evaluate computer-based learning and applications.

B. Statistics Course Required Prerequisite

An upper-level statistics course needs to be completed within five (5) years of the application deadline. Acceptable University of Iowa courses are as follows: STAT:3510, PSQF:4143, STAT:4143 or BIOS:4120. Equivalent courses from other colleges will be accepted as well. A student must earn at least a C- in the course. It may not be taken on a Pass/Fail basis. Semester hour credit earned for the statistics course does not count toward the graduate degree objective.

C. Guidelines for Graduate Transfer Courses

PhD students: Also see the section specific to PhD students for transfer criteria and documentation.

Graduate students should have all transfer courses approved by the Graduate Programs Office prior to enrolling in transfer coursework. Course descriptions or syllabi may be submitted for review. (Please note that the syllabus should include: the name of the college or university, the name and number of the course, the name of the textbook which accompanies the course, a topical outline of the course content, objectives, and credit hours, any prerequisite courses, and the name of the instructor.)

Credit for courses taken outside the University of Iowa prior to admission to the graduate program, and/or during the course of the graduate program must also be approved by the University of Iowa Graduate Admission Office. Approval will be entered on the student’s permanent transcript and sent to the College of Nursing Office of Student Services.

The following guidelines apply to graduate transfer courses:

1. The course must be graduate-level according to the issuing institution's course-numbering system, and the institution must be accredited. The University will not accept transfer credits from a non-accredited institution.

2. The student must enroll as a graduate student and pay graduate tuition.
3. Upon completion of the course, the course number, name, credits, and grade must appear on an official graduate transcript from the issuing institution.

4. A course taken for undergraduate credit may not be applied to a graduate degree. Courses from 2-year and 4-year schools without graduate offerings may not be applied to a graduate degree.

5. Courses that are offered for undergraduate credit only (e.g. courses numbered 0000-2999 at the UIOWA) may not be counted as graduate credit.

6. Students must meet the Academic Registration Requirement for graduation from the Graduate College at The University of Iowa. Non-resident credit would include credit earned for transfer courses, correspondence courses, and credit earned under special student status. (See Graduate College Rules and Regulations: https://www.grad.uiowa.edu/rules-and-deadlines?portal=current-students [MSN (Section XD1) DNP and PhD (Section XIIC)]

D. Coursework Over 10 Years Old

Students can request courses over 10 years old to be counted toward their final semester hours. The letter will be prepared by the Graduate Programs Office and submitted to the Dean of the Graduate College for approval.

E. Nursing Licensure

All graduate students in the College of Nursing must hold a current and valid nursing license and must provide proof of this license. Students admitted Fall 2011 or later will upload their license into the CastleBranch system. Students admitted prior to Fall 2011 will need to submit a copy of their license to the Office of Student Services 37CNB.

A student will not be admitted to our program or permitted to engage in a clinical course if the student:
   a. Has been denied licensure by the board, and/or
   b. Whose license is currently suspended, surrendered or revoked in any United States jurisdiction, and/or
   c. Whose license/registration is currently suspended, surrendered or revoked in another country due to disciplinary action

International students: Please see the section specific for PhD students. (Due to the level of Internet-based course work required, international students can only be admitted to the PhD program.)

F. Insurance

All students, with the exception of those listed below, in the College of Nursing must show annual verification that they have obtained and currently hold professional liability insurance with coverage of at least $1,000,000 single occurrence limit, 3,000,000 aggregate. Students admitted Fall 2011 or later will upload their proof of liability into the CastleBranch system. Students admitted prior to Fall 2011 will need to submit a copy of their liability policy to the Clinical Coordinator in the Office of Student Services 37CNB. This requirement serves both as an act of professionalism and to protect students' personal assets. Professional liability insurance
covers error, negligence, or omission that may occur during the practice of nursing. It pays for court costs and legal fees whether or not individuals are liable for the charges made against them.

Exception: Post-MSN-DNP and PhD students. Upon further council with the University of Iowa Legal Services and Risk Management, we have determined that personal professional liability insurance can be waived if, as a student, you have no clinical engagement. Please note that clinical engagement could include your capstone project. Please consult with your advisor prior to beginning any work on your project.

G. Mandatory Health Insurance

All students in the College of Nursing must show annual verification of valid health insurance coverage. Proof of insurance must be provided to the University of Iowa Benefits Office to avoid being charged for student insurance. For more information visit the following website https://hr.uiowa.edu/benefits/health-insurance-graduate-students.

H. Health and Clinical Requirements

The University of Iowa requires all health science students to provide documentation of the following immunizations. In addition, College of Nursing students participate in many clinical experiences and must comply with the standards agreed upon by our clinical partners. Students are expected to provide documented proof of the following health requirements upon acceptance into the College. Documented proof must be sent to Student Health as well as the College of Nursing. College of Nursing contracts with CertifiedBackground.com, a service that allows students to order their own background checks online and to store all requirement documentation. Failure to have current information in the tracker system will result in blocking or voiding your registration as well as blocking you from beginning your clinical hours.

Note: From the list below, the College of Nursing only requires Post-APRN-DNP and PhD students to complete the Criminal Background Check and Abuse Registry Check and to upload their RN license.

Criminal Background Check and Abuse Registry Checks
Ordered by student upon acceptance in to the program

MMR
Proof of 2 vaccination dates or 3 positive titers showing immunity of each of the following: measles, mumps and rubella.

Varicella
Varicella vaccination series OR titer showing positive immunity.

Td/Tdap (tetanus/diphtheria)
Tetanus/diphtheria/pertussis: 1 Td at least every 10 years. Must have documentation of 1 Tdap vaccine.

Hepatitis B Titer
3 vaccination dates AND A POSITIVE ANTIBODY TITER. The titer is not traditionally a part of your series.

TB Skin Test or Chest X-Ray or IGRA Gold Blood Test

- TB Skin Test (2 step skin test required)
  - If you have documentation of (1) negative TST in the past 12 months, or documentation of (2) negative TSTs in your past, you need one more TST to meet
the two-step requirement. A TST or IGRA is also required annually, after the two-step is completed initially.

- IGRA (Interferon Gamma Release Assay- Quantiferon Gold or T-Spot) is an alternative. If you have never had any TB skin testing, the two-step TST is done as follows: The first test is placed, and results are read in 48-72 hrs. The second test is placed at least 7 days after the reading of the first test, and read at 48-72 hrs. Send documentation of both tests, and include placement date, reading date, result, and mm induration.
- Those with a history of a positive TST or IGRA must provide a copy of the CXR (Chest x-ray) report. If treated for LTBI (Latent TB Infection), provide medication treatment dates. Students with a history of a positive TST are also required to complete a symptom assessment initially and annually.

CPR Certification
Current certification in American Heart Association (Healthcare Provider) or Red Cross Professional Rescuer training including one and two person adult and child. Must be current.

RN License
Current RN License, including expiration date

Liability/Malpractice Insurance
Minimum of $1,000,000 coverage/single incident and $3,000,000/aggregate

Compliance Training
Online training provided by the College of Nursing to be completed previous to matriculation.

Health Screening Form
Must be completed and submitted to Student Health as well as CastleBranch

For any questions regarding clinical requirements, please contact our Clinical Coordinator, at 319-335-7069.

I. Requirements for Human Subjects Research

All externally funded research projects by Iowa faculty and staff and all student research projects are reviewed for protection of human subjects by the appropriate University of Iowa Institutional Review Board (IRB 01) and are certified as acceptable to NIH under FWA00003007. Each funded or non-funded project receives an IRB Review number or is designated as exempt, after appropriate IRB screening. This IRB approval must be received prior to initiation of data collection.

The College of Nursing requires that all graduate students submit proof that the IRB review was completed and what the determination was (i.e. exempt). This documentation must be submitted to the Graduate Programs Office prior to beginning the project or dissertation process.

All proposals are submitted to the Human Subjects Office using the Hawk IRB tool, which can be found on the HSO website at http://research.uiowa.edu/hso/

NOTE: Graduate students must have their proposals approved by their project or dissertation committee before submitting a HawkIRB application.

Agency Approval
For each research project, the appropriate agency approval must be obtained.

- If research is based at the University of Iowa hospitals, agency approval must be obtained from the UIHC Nursing Service, through its Nursing Research Committee
(NRC). NRC approval must be granted before Committee A will give final
approval.

- If funded or non-funded research is conducted off-campus, agency approval must
be obtained before Committees 01 or 02 will grant final Human Subjects approval.
An agency approval form may be used or this can be indicated by an agency letter.

Special Situations
- **VAMC (Iowa City):** Approval for research involving nursing service and/or
nursing care delivery must be obtained from the Associate Director, Patient Care
Services, 338-0581, Ext. 6104, or VAMC Patient Care Services 002.

- **School systems:** If research is to be conducted in Iowa public/private schools (K-
12), consent must be obtained from the Cooperating Schools Program before final
IRB approval. More information at CSP website at http://www.uiowa.edu/~csp/

All necessary forms for submissions to Committees 01 or 02, NRC, and VA R&D Office
are available on the Human Subjects Office website at http://research.uiowa.edu/hs/o/. If
you have any questions, feel free to talk to the Research Office staff.

Refer to the Clinical Leadership Project (NURS:6825) course site for directions and
appropriate forms.

V. Student Performance and Progress

A. Evaluation & Grading

1. Regular Courses/Seminars and Practice
   a. These courses are letter-graded with A = 4 points, B = 3 points, C = 2 points, and
      D = no graduate credit. At the discretion of the instructor, plus and minus marks
      may be used.
   b. All graduate courses must be taken for a letter grade, except for the CNL Capstone
      Clinical Immersion course, Advance Practice Clinical Practicums, the last 3 hours of the Doctor
      of Nursing Practice Project, Research Practicum, Research Scholarship Role Development
      Seminar, Dissertation Research, Research Residency, and Independent Study Courses.
      Courses with 1 or more semester hours of registration will be graded with S or U; courses with
      0 semester hour registration will be graded with a R or W.
   c. The grade of “I” is to be used only when a student’s work during a session cannot
      be completed because of illness, accident, or other circumstances beyond the student’s control
      and must be approved by the Assistant Dean for Graduate Practice Programs or the Director of
      the PhD Program before assigning the grade. An Incomplete will automatically be converted to
      an “F” at the end of the next full semester (summer and winter sessions excluded), even if the
      student does not enroll after the session the “I” was posted. Courses may not be repeated to
      remove incompletes; removal of an “I” is accomplished only through the completion of the
      specific work for which the mark is given.

B. Good Standing

1. A graduate student is in good standing if, in the collective judgment of the faculty, the
   student has exhibited "satisfactory performance," "normal progress," and "appropriate
   professional conduct."

2. Satisfactory Performance: Graduate College policies concerning academic standing,
probation, and dismissal are in the Manual of Rules and Regulations of the Graduate
College, Section IV https://www.grad.uiowa.edu/manual-part-1-section-iv-academic-
standing-probation-and-dismissal
   a. Doctoral (PhD and DNP) Programs:
1) A cumulative College of Nursing and Graduate College grade-point average of at least 3.0.
2) A minimum grade of C is required in the advanced core and specialization courses for all students in practitioner programs.
3) For clinical courses, demonstration of safe practice and satisfactory clinical progress.
4) Generally good or excellent performance in individualized instruction registrations, as reflected in ‘R’ or ‘S’ marks and written reports.
5) Generally good or excellent performance in assistantship activities, as reflected in written reports.

b. MSN Program:
1) A cumulative grade-point average of at least 2.75.
2) Generally fair or better performance in individual instruction registrations, as reflected in ‘R’ or ‘S’ marks and written reports.

C. Writing Guidelines and Resources

1. Writing Guidelines, APA style

The College of Nursing has minimum writing competencies for all nursing students. It is expected that graduate students at the College of Nursing will write at a level that meets or exceeds these minimum competencies.

The College of Nursing asks that you write in “APA style.” This refers to the editorial style that many of the social and behavioral sciences have adopted to present written material in the field. Editorial style consists of rules or guidelines that a publisher observes to ensure clear and consistent presentation of written material. Editorial style concerns uniform use of such elements as:

- punctuation and abbreviations
- construction of tables
- selection of headings
- citation of references
- presentation of statistics
- as well as many other elements that are a part of every manuscript

APA’s style rules and guidelines are set out in a reference book called The Publication Manual of the American Psychological Association. The APA Publication manual and website also provides style guidelines pertaining to citing electronic media, including URLs, general format for electronic reference, reference examples for electronic source materials, and citations in text of electronic material. The APA Manual is at this URL:

2. Writing Resources

a. The University of Iowa Writing Center

The Writing Center helps all in the University community improve their writing, including attitudes and self-confidence about writing. They also assist with reading.
https://writingcenter.uiowa.edu/

b. The University of Iowa Graduate College Electronic Thesis and Dissertation Program:
http://www.grad.uiowa.edu/theses-and-dissertations
D. Recognizing and Avoiding Plagiarism in the University of Iowa College of Nursing

1. What is Plagiarism?

Plagiarism involves the use of other people's intellectual material and/or efforts in place of your own work, and representing these materials-efforts as being your own work. In other words, “plagiarism occurs when a writer deliberately uses someone else’s language, ideas, or other original (not common knowledge) material without acknowledging the source” (From “Defining and Avoiding Plagiarism”, by the Council of Writing Program Administrators, obtainable at the Internet from http://www.wpacouncil.org/positions/WPAplagiarism.pdf)

2. Examples of plagiarism

a. Presenting part or all of another student's lab report or other written assignment as your own.

b. Use of an essay, review, report, or other material purchased or obtained free from any kind of 'writing service' or database (such as are found on the Web) to complete a class assignment.

c. Copying from an unpublished or published source, including your textbook, lab manual, or other class material.

Comments:

(a) A source does not have to be copied verbatim (word for word) to be plagiarized. The use of small sections of a source, stitched together with bits of your own prose without scholarly or peer attribution, is plagiarism. Likewise, using material that has been modified by substituting synonyms, altering punctuation, or changing rhetoric in ways that do not alter the original passage in any substantial way, particularly paraphrasing, without attribution to the source, is also plagiarism.

(b) The basis of, and evidence for, plagiarism is the illegal use of material, not your intent. A charge of plagiarism is not automatically nullified by claims such as “I didn't know I was copying”, or "I didn't know I couldn't copy that material." or "I didn't intend to plagiarize."

(c) Increasingly, our information comes from the Internet. It is important to realize that the concept of plagiarism is exactly the same when applied to material from the Internet as it is for printed material. “I got it from the Web” is never a valid excuse for failing to appropriately cite material and attribute the original thinking of another as such.

(d) A person who supplies an exercise that is illegally copied is as guilty as the copier. The argument "I just let so-and-so look at my paper as an example of how they are written" is not accepted as a defense in a case in which two papers are so similar that they are judged to share a common source, unless it can be clearly demonstrated that a fellow student has purloined another student’s original work by copying, downloading, or pilfering materials without the student’s knowledge.

(e) Materials which are prepared for an assignment in one class may not be used in their entirety to fulfill the requirements of an assignment in another class.

3. What are the penalties for plagiarism?

Plagiarism is bad for two reasons.
Firstly, plagiarism is cheating. You are here to learn a particular body of skills and materials, and to be assessed on how well you have learned. Any form of cheating impedes your learning and misrepresents your capacity to perform. There may be a short-term gain from cheating (better grades) but in the long term it benefits no one. Cheating—including plagiarism—cannot be tolerated if the University is to fulfill its educational mission.

The second reason is that the products of intellectual work are property, just as other products of work are property. To use another person's work without crediting that person is intellectual theft. This is a major issue in the academic and commercial worlds, where ideas and the presentation of ideas are used for professional credit and/or material benefit.

4. What are the penalties for plagiarism?

Penalties for first offenses of plagiarism, or any other form of cheating, can include reduction in grade (up to an F in the course) at the instructor's discretion, and disciplinary probation. A second offense can result in suspension from the College, also resulting in simultaneous expulsion from the Graduate College. (See the updated Graduate College Manual of Rules and Regulations Part 1, Section IV.F.)

5. Is any use of other people's language or work plagiarism?

No. Here are some major exceptions.

a. Technical terms and language: No matter how specialized a term is, once it has been coined to describe a particular situation, it becomes common property.

b. "Common knowledge": repeating “boilerplate” phrases such as “The purpose of this report is to analyze heredity in Drosophila” would not ordinarily be counted as plagiarism, since such sentences may turn up repeatedly in reports written independently. However, statements expressing scientific ideas, data, or conclusions do not fall under this exception.

c. Quotations: It is legitimate to cite another person's work verbatim if it is presented as a direct quotation. To do so, you must—

(1) Enclose the material in quotation marks;
(2) Cite the author and source.

For example, here is a correctly presented quotation from your text:
"...the biological species concept hinges on reproductive isolation, with each species isolated by factors (barriers) that prevent interbreeding, thereby blocking genetic mixing with other species."

Realize that we use quotations only occasionally, to 'dress up' a report, not to form the main body of a report. A report, essay, or other assignment that consists largely of quotations shows a capacity to read, but it does not necessarily show a good understanding of the material at hand.

6. If I use a lot of notes from source material when I prepare an assignment, how can I make sure I don't plagiarize?
Many people inadvertently (but still illegally!) plagiarize by the following poor work habits. They copy notes verbatim from a source as they read, put the notes aside, and later compile the assignment by reading and typing directly off those notes.

Avoid this error by studying material to understand it. Follow these steps:

a. As you read your source material, **condense it in your own words** and write those as notes. Do this paragraph by paragraph if the material is difficult. Acknowledge the influences of secondary sources in shaping your own original thinking (analysis).

b. Write commentaries on the material as you read it. Does it make sense? Do other sources agree or disagree with it? Can you think of better ideas or interpretations? And so on. Use it as you go. Review notes frequently to determine why you agree or disagree with the sources and where your original conclusions depart from the analyses of others.

c. Make an outline of your assignment, and then write a rough draft **without** consulting your sources.

d. Go back to the source material to check facts and to make sure that you’ve expressed major ideas correctly. This procedure is a guarantee against plagiarism. Even more important, you will know your subject material when you are done, you will have had practice in writing, and your assignment will be easier for your audience to follow.

e. Finally, when in doubt, check with your instructor. You can never go wrong taking this simple step.

7. Is recycling of my own earlier writing a form of plagiarism?

Technically, it is not. However, if you quote your own earlier writing it is considered proper to place it in quotation marks and cite its source. Furthermore, “Submitting the same paper in more than one course without the knowledge and approval of the instructors involved” is considered a form of cheating (see Chapter IX of the CLAS Student Academic Handbook, cited above). If you are taking this course a second time and are assigned to do a report on the same lab exercise that you had written on before and wish to incorporate material from your own earlier report, consult your lab instructor before you prepare the report.

8. Is miss-citing material a form of plagiarism?

An incomplete reference or one with a typo (e.g. in page numbers) is not an offense. However, deliberately citing the wrong sources is a serious offense, because it makes it harder for the reader to check up on the accuracy of the information that you present. Thus you may lose points on a paper for careless attribution of sources. If (as once happened) the sources cited bear no relation to the material quoted in the text, the paper will get a zero.

E. Academic Misconduct and Code of Student Life

All students in the College of Nursing are expected to comply with professional and ethical standards in all aspects of student life – in classes, clinical experiences, as advisees, toward their peers, and toward faculty, staff and administration. Students are also responsible for complying with policies related to student life that may be found on line at the following site: [http://dos.uiowa.edu/policies/code-of-student-life-14-15/](http://dos.uiowa.edu/policies/code-of-student-life-14-15/).

F. Grievance Procedure
Student complaints concerning actions of faculty members are pursued first through appropriate communication channels as outlined or with the assistance of the University Ombudsperson.

1. Informal Complaint Mechanism – Communication Channels
   a. The student should first attempt to resolve the issue with the faculty member involved.
   b. Lacking a satisfactory outcome with the faculty member, the student may take the matter to the appropriate Program Director/Coordinator.
   c. For DNP and MSN students, if a satisfactory outcome is not obtained, the student may take the matter directly to the Assistant Dean For Graduate Practice Programs.
   d. If a satisfactory outcome is not obtained, the student may take the matter directly to the Interim Associate Dean.
   e. Lacking a satisfactory outcome with the Interim Associate Dean, the student may take the matter to the Council on Student Affairs, Admission & Progression.
   f. When a satisfactory outcome has not yet been obtained, the student may take the matter to the Dean of the College of Nursing.

2. Formal Complaint Mechanism
   If a student complaint concerning faculty actions cannot be resolved through the informal mechanism available, the student may file a formal complaint which will be handled under the procedures established for dealing with alleged violations described in the statement on Professional Ethics and Academic Responsibilities as specified in section III-15 of the University Operations Manual (https://opsmanual.uiowa.edu/human-resources/professional-ethics-and-academic-responsibility). If your complaint involves sexual harassment, please see this link http://opsmanual.uiowa.edu/community-policies/sexual-harassment.

The Office of the University Ombudsperson (C108 Seashore Hall 319-335-3608 ombudsperson@uiowa.edu https://uiowa.edu/ombuds/) responds to problems and disputes brought forward by all members of the University community--students, staff, and faculty--that appear irresolvable through existing channels. Before consulting the ombudsperson, ordinarily an attempt should be made to resolve problems by following the procedures described above.

G. Final Course Grade – Policy and Procedure
   Policy: Students are responsible for meeting the standards of academic performance established for each course in which they are enrolled. The establishment of the criteria for grades and the evaluation of student academic performance are the responsibilities of the instructor. Students are encouraged to communicate with the instructor first to resolve any discrepancy surrounding an assigned grade (Informal Appeal). If the student is not satisfied with the outcome of the informal appeal, then s/he may pursue the Formal Grade Appeal Procedure. The burden of proof is on the student in a grade appeal procedure. The College and the student should cooperate to follow the established timelines so as to reduce the extent to which a grade appeal procedure affects student progression and financial aid status. If an appeal involves a course designated as a prerequisite for the next course in a plan of study, student progression might be affected while the appeal is pending.

This grade appeal policy and procedure applies only to final course grades and not to individual assignment discrepancies. Grade appeals in the College of Nursing must be initiated within seven business days after a grade is posted or they will be dismissed as untimely.
The appeal should provide adequate evidence that capricious grading has occurred. Capricious, as that term is used here, comprises any of the following:

- The assignment of a final grade to a particular student on some basis other than that student’s performance in the course;
- The assignment of a final grade to a particular student according to more exacting or demanding standards than were applied to other students in the course;
- The assignment of a final grade by a substantial departure from the instructor’s previously announced standards.

When a grade appeal is NOT appropriate:

- To challenge course design;
- To challenge quality or nature of instruction. These may be legitimate concerns, but are more appropriately addressed by the Administration;
- To challenge grading applied to all students in the course.

FORMAL GRADE APPEAL PROCEDURE

STEP #1: The student will use the Grade Appeal Form (see below) which MUST state why he/she believes capricious grading occurred. The student must identify which reason(s), and all future correspondence should focus on that/those rationale(s). The Grade Appeal Form and any associated supporting documentation must be received by the designated administrator within seven (7) consecutive business days of the final grade posting.

This form is then given to the appropriate Administrator as follows:

- Undergraduate (BSN) students submit the form to the Associate Dean Undergraduate Programs
- DNP and MSN students submit the form to the Assistant Dean for Graduate Practice Programs.*
- PhD students submit the form to the Director of the PhD Program

*The Assistant Dean for Graduate Practice Programs may provide a copy of the form to the appropriate program director at this point.

STEP #2: The Administrator forwards the written grade appeal to the instructor who assigned the grade for written response. The instructor responds to the appeal within two (2) business days from receipt of the appeal from the Administrator. The Administrator may facilitate resolution at this point in the process. If resolved, the form is then returned to the Administrator who will send the written decision to the student electronically within two (2) business days, with a return receipt requested.

STEP #3: If the student is not satisfied, the student has two (2) business days from the receipt of this letter to continue the appeal. If the student wishes to pursue the appeal, he/she provides written notification to appropriate Administrator (as defined in step 1). The Administrator informs the Executive Associate Dean (EAD) and provides all appeal materials to the EAD for review/decision-making. The EAD will consider the appeal within 5 business days and communicate a final decision in writing to the student, the instructor and the appropriate Administrator. The process concludes with the final decision of the EAD.
UNIVERSITY OF IOWA COLLEGE OF NURSING
GRADE APPEAL FORM

Student Name: ______________________________ Course Number/Name: ______________________________

Course Instructor: __________________________ Grade Received: ______ Semester Taken: ______________________________

All appeals/responses must be placed on an original sheet

H. Honor Code

Honesty, integrity and high ethical standards are central to the practice of professional nursing. Professional nursing recognizes and addresses the health care needs of a global society, communities and their members. Professional nursing education encompasses a humanistic orientation and a dedication to basic ethical principles. Nursing education requires immersion in the values of nursing; caring, compassion, confidentiality, collaboration, discipline, evidence-based practice, critical thinking, respect, and dedication to the highest standards of ethical behavior. As a professional nurse, standards of behavior are expressed in the American Nurses Association Code for Nurses with Interpretive Statements, 2001. These values are central to patient-centeredness, patient advocacy, and providing care that leads to the best patient outcomes.

Participation in the Honor Code provides evidence to the University of Iowa College of Nursing community that the integrity of its members is unquestioned and accepted by those in the academic, clinical, and research communities. Participation in the Honor Code confers upon graduate students the responsibility to respect and protect the integrity of the University of Iowa College of Nursing. It also provides evidence that the learning environment is safe and equitable regardless of the graduate student’s gender, race, religion, or sexual orientation. Graduate students and faculty together establish and maintain and protect trust in these beliefs.

When you study at the College of Nursing, you join a conversation among scholars, professors and other graduate students, one that helps sustain both the intellectual community here and in the larger world of nurse-scholars. The tests you take, the papers you write, the clinical experiences you participate in—all these are ways in which you contribute to this conversation.

The College of Nursing presumes that your work for any course or any experience is your own contribution to that scholarly conversation and it expects you to take responsibility for that contribution. This means that you should only present ideas that are your own, or, if you present the ideas of others, that they are properly attributed. Failure to do so constitutes academic dishonesty.

Graduate students at the University of Iowa College of Nursing are expected to demonstrate honesty and integrity in the preparation of academic work, and to behave in a manner consistent with that of a professional nurse.

I. Code of Ethics (signed and submitted upon acceptance of admission)

It is expected that students in the College of Nursing at The University of Iowa represent themselves, the College, the University, and the nursing profession in an ethical and professional manner. The various units to communicate what is expected as a student/representative of each entity have outlined several guidelines, policies, and regulations.

It is my responsibility to know and adhere to the policies. My signature below indicates that I have read all documents outlining the policies, procedures, and regulations. In addition, as long as I am a student in The University of Iowa College of Nursing I will abide by all policies, procedures, and regulations as outlined.

- The University of Iowa Policies and Regulations Affecting Students. This document is available electronically at http://dos.uiowa.edu/
- The College of Nursing Graduate Student Handbook http://www.nursing.uiowa.edu/current-students/handbooks

NAME (please print)________________________ DATE____________

20
J. Guiding Principles for Nursing Students in the Use of Social Media

**Internet social networks:** Internet sites such as Facebook, MySpace, Friendster.com, Twitter and others enable students to interact with an extensive number of people and to connect with friends and family. Postings by students on their profiles, groups and chat rooms, and their communications to others are in the public domain and are easily accessible by anyone including reporters, parents, faculty members, law enforcement, predators, potential employers and graduate school admissions officers. Even after it has been deleted, information once posted on a web site can sometimes be retrieved by persons with sufficient technical computer skills.

**College of Nursing Policy:** Attendance at the University of Iowa College of Nursing and participation in the care of others is a privilege that imposes certain obligations on students, including the responsibility of behaving in a professional and ethical manner. This means students must present a professional and positive image of the profession, the College and themselves. Nursing students are expected to conduct themselves with honesty, dignity and professionalism. The College of Nursing believes in protecting the students’ rights of freedom of speech, expression and association, including their right to use internet social networks. The College of Nursing also believes in protecting the rights of patients with whom students interact, the rights of faculty members (particularly to their intellectual property), the rights of other students, and the public at large. Students are expected to monitor their own internet use and post only statements and images that appropriately represent them, the College and the profession to the public.

The College of Nursing reserves the right, under the Student Code of Conduct, to investigate and take disciplinary action, against any student whose posting of material on an internet site violates University policies, College of Nursing policies or the Honor Code, HIPAA rules, or state or federal statutes. Internet postings that violate these principles include, but are not limited to, sharing of confidential information, images or language that represent partial or total nudity, sexual activity or misconduct, underage alcohol consumption, illegal acts, use of illegal drugs or other controlled substances, hazing activities, tobacco use, obscene gestures, cheating. Also prohibited is information about peers, faculty or other professionals, or clinical sites, that is insulting, derogatory, negative or any posting that could be construed as “bullying”.

**Recommended Action:** It is recommended that students review and monitor internet sites on which they have posted to ensure that inappropriate material does not appear. Students are encouraged to monitor their preferred sites/postings and assist their classmates/colleagues in monitoring their sites/postings in order to prevent personal or professional damage to themselves, other students and the College of Nursing, the University of Iowa and the profession of nursing.

For reasons of safety and privacy, it is recommended that students refrain from posting and remove any personally identifiable information such as telephone number, address, class schedule, and places frequented. Students should check tagged photos and monitor electronic photo albums to avoid posted photos that would be considered inappropriate.

Students should be cautious in joining social networking groups and be sure they want to be associated with each group they join. Students should refrain from creating or joining a group that is obviously inappropriate for nursing students or is malicious. Students should also understand that, once they become group members, they are linked to the on-line discussion that takes place within that group and only the group’s administrator will be able to remove them from group membership or remove postings made to the group site.

Students should alert the University Compliance Office if they discover the existence of any site created by others that falsely appears to represent their identity. The creation of such a site may constitute identity theft and the University will provide assistance in their efforts to have the offensive sites removed.
By my signature below, I affirm that I have read and understand the University of Iowa College of Nursing “Guiding Principles for Nursing Students in the Use of Social Media”. I understand that failure to abide by these principles by posting inappropriate material that violate this, other College of Nursing, University of Iowa, or UIHC policies may result in sanctions under Category II Misconduct as outlined in the College of Nursing Student Code of Conduct. Students may also refer to the University of Iowa Policy on Social Media Use on the Internet.

VI. College of Nursing Office of Student Services

A. Dual Advisement Program

1. Faculty Advisor, Program Staff Advisor

Each graduate student in the College of Nursing has a faculty advisor to guide their scholarly inquiry and role development in their area of study. In addition, each graduate student is supported by an advisor in the Office of Student Services. The role of the faculty advisor is to serve as a mentor, provide career guidance, and guide the student’s program synthesis toward a successful endpoint. Advisors typically lead the capstone, project or dissertation that serves as a culmination of the student’s graduate program. Student Services staff support the student in navigating the University processes, meeting the Graduate College requirements and important deadlines, and complying with College requirements such as licensure, HIPAA, or criminal background check.

2. Changing a Faculty Advisor

From time to time it may be necessary to change a faculty advisor; this change is made through the Office of Student Services who will facilitate the change in consultation with the Assistant Dean for Graduate Practice Programs or the Director of the PhD Program.

B. Association of Graduate Nursing Students (AGNS)

Graduate students have the opportunity to participate in the College of Nursing Association of Graduate Nursing Students (AGNS). AGNS meetings and events are held throughout the academic year to discuss issues and provide mentoring and share ideas. AGNS nominates student representatives to serve on the College of Nursing’s Council on Curriculum, Council on Student Affairs, Diversity Committee, Technology Committee, DNP Forum, and PhD Forum as well as the University Graduate Student Senate. Students are also eligible for membership in a variety of professional and specialty nursing organizations at the state and national level.

C. Communication

1. E-Mail

Every student at The University of Iowa is provided with an email account. This UIOWA account must be activated through MyUI. Students are required to activate the UIOWA account and to check this account regularly. You are assigned an “alias” address of the form “jane-doe@uiowa.edu”. The alias address is typically your first and last names, separated by a hyphen, and followed by “@uiowa.edu”. The alias address is much easier to remember and is the address you should share with others. All university-wide and departmental mass mailings are sent to your alias address, so you must have a valid routing address in order to receive the mailings. Also, if you change your routing address for some reason, you do not need to notify your e-mail correspondents because your alias address remains the same. If you already have a non-university e-mail account and would like to continue to use your Hotmail, AOL, or another account, then you should register your existing account as your “routing” address in MyUI. Give your e-mail correspondents your alias address.

2. Graduate Student listserv – agnsnet
College of Nursing Graduate Students have a listserv where announcements and discussions of various issues relating to graduate education, employment, speakers, courses of interest take place. All students are added to this listserv by the Graduate Programs Office staff prior to their first semester of coursework.

D. Electronic Based Resources

1. On-line Courses.

On-line courses fall into the following categories:

- Web-based Courses (generally defined as requiring no or minimal on-campus attendance, with all learning experiences managed through a course website)

- Web-Assisted Courses: (generally defined as requiring regularly-scheduled class attendance with course website providing access to course materials and assistance in organizing assignments and deadlines.)

2. College of Nursing Instructional Technology Center

The College of Nursing and ITS (Instructional Technology Services) maintain an ITC (Instructional Technology Center) in room 40NB. The Nursing ITC is typically open Monday – Friday. Students who require additional access can go to any of the other campus wide ITCs. The ITS web page [http://its.uiowa.edu/](http://its.uiowa.edu/) provides access to ITC locations as well as information related to the services they offer.

E. Resource Labs & Libraries

1. Nursing Clinical Education Center

The Nursing Clinical Education Center is located on the fourth level of the General Hospital in University of Iowa Hospitals and Clinics. The center, a joint effort between the Department of Nursing Services and Patient Care at UI Hospitals and Clinics and the UI College of Nursing, provides a learning environment of the highest quality to enrich nursing clinical educational experiences and to improve patient care now and in the future [http://www.nursing.uiowa.edu/excellence/ncec](http://www.nursing.uiowa.edu/excellence/ncec).
2. Morris Research Lab for Gerontological Nursing Research

The Morris Research Laboratory is located in the College of Nursing in Room 435 NB. The lab is typically open from 8 am to 4:30 pm year round and is available for students, faculty and staff who wish to do research, study, or use an IBM compatible computer. Contents of the lab include some of the latest research in the field of Gerontological Nursing and Instrument Assessments. The Morris Lab also offers a variety of journals that includes some of the more popular journals, such as *The American Journal of Nursing*, *The Journal of the American Geriatric Society*, *The Gerontologist*, the journals of *Gerontology and Gerontological Nursing*. The checkout policy is a maximum of two weeks for audio-visual materials and books, and a maximum of two hours for periodicals.

3. The Laboratory for Advanced Computing in Nursing

The Laboratory is designed to support specific research needs in bioinformatics and genetics, as well as the intersection of clinical specialties and informatics. It is specifically designed to support qualitative and quantitative methods, large database research, knowledge representation, and knowledge discovery. The Laboratory has full access to all College of Nursing and University of Iowa network computer resources, including large data storage resources. Access includes but is not limited to a Microsoft SQL database server, University licensed software, email, and web servers. A magnetic ID card reader controls access to the Laboratory. To request access, please contact Linda Hand at linda-hand@uiowa.edu.

4. The Center for Nursing Classification and Clinical Effectiveness

The Center for Nursing Classification and Clinical Effectiveness facilitates the continued development and refinement of Nursing Interventions Classification (NIC) and Nursing Outcomes Classification (NOC) to enhance nursing’s visibility and contributions to health care. Such classification research is crucial to the documentation and study of nursing care and to the articulation of nursing care with that of other health care providers. The Center purposes are to: 1) conduct the review processes and procedures for expanding and updating Nursing Interventions Classification (NIC) and Nursing Outcomes Classification (NOC) to reflect current nursing practices; 2) produce and disseminate materials related to the Classifications; 3) provide office support to assist faculty investigators to obtain funding; 4) provide research and educational opportunities for students, fellows and visiting professors; and 5) assist with implementation and use of the Classifications in clinical practice and educational settings. The Center for Nursing Classification and Clinical Effectiveness is located in room 407 NB. For more information see Sue Moorhead in 458 NB or contact her at 335-7110 or sue-moorhead@uiowa.edu.

5. Barbara and Richard Csomay Center for Geriatric Nursing Excellence

The Barbara and Richard Csomay Center for Gerontological Excellence seeks to train nurse scientists and clinicians to ensure that “best geriatric practices” are produced and used.

F. Sigma Theta Tau International – Honor Society of Nursing

Sigma Theta Tau International provides leadership and scholarship in practice, education and research to enhance the professional development of our members, who strive to improve nursing care worldwide.

More than 300,000 nurse scholars have been inducted into Sigma Theta Tau. With 120,000 active members, it is the second largest nursing organization in the world. Members are active in more than 90 countries and territories, and the 424 chapters are located on 523 college and university campuses in the U.S. and countries including Canada, Hong Kong, Pakistan, South Korea, Australia, Taiwan, The Netherlands and Brazil.
Membership is by invitation to baccalaureate and graduate nursing students, who demonstrate excellence in scholarship, and to nurse leaders exhibiting exceptional achievements in nursing.

The Sigma Theta Tau chapter at The University of Iowa is Gamma. We induct new members into our organization annually during spring semester. Criteria for membership as a graduate student are:

1. enrollment in programs of graduate study in nursing (master, post-master, doctoral, and post-doctoral).
2. achieved a cumulative grade point average of at least 3.5 on a 4.0 scale
3. completed a minimum of one-quarter of the required graduate curriculum
4. demonstrate superior academic achievement, academic integrity, and professional leadership potential.

Gamma Chapter provides scholarships, grants and awards to recognize academic and clinical excellence as well as innovative research.

VII. College of Nursing Policies

A. Photo Identification Badges

College of Nursing photo identification badges are ordered by the Office of Student Services. Students must wear their photo identification badges at all times while engaged in direct or indirect patient/client care activities as a student of the College of Nursing. If the original badge is lost or name is changed, contact the Graduate Programs Office.

B. College of Nursing Smoking Policy

In April of 2007 the Health Science campus became a smoke free campus. Information about boundaries and policies can be found at the following web site: https://hr.uiowa.edu/policies/smoking

C. College of Nursing Policy on Academic Accommodations

Faculty in the College of Nursing are required to comply with University policies and procedures regarding the provision of academic accommodations to students with disabilities. This includes, but is not limited to, making an announcement at the beginning of each term and including similar language in the course syllabus inviting students seeking accommodations to contact the instructor directly. If a student identifies himself or herself as having a disability and requests accommodation, generally it is the instructor’s responsibility, in connection with the College of Nursing, to ensure that the learning environment is accessible and that appropriate accommodations are provided. Students are encouraged to register with the University Office of Student Disability Services. Faculty members should contact the Office of Student Disability Services as to general questions about academic accommodations.

A student, who is dissatisfied with the outcome of either a formal or informal complaint filed under the College’s complaint procedure involving the accommodation of a disability, may file a complaint with the Equal Opportunity and Diversity office.

D. Student Health and Wellness Prevention of Blood-Borne Pathogens

Standard Precautions

https://studenthealth.uiowa.edu/assets/Standard-Precautions.pdf
See link for precautions information and flowchart
VIII. University of Iowa Policies

A. University of Iowa Student Handbook on MyUI

The University of Iowa provides an online Student Handbook on MyUI. The site provides links to information on registration as well as to your rights and responsibilities as a registered student.

B. Registration Policies

Early registration for enrolled students begins each March for summer, April for the fall semester, and November for winter and spring. Students should refer to their individualized plan of study; MSN and DNP students will be coded into courses based on their plan of study. Information about enrollment status, grades and tuition as well as the full version of the academic calendar is available at the Registrar’s website: https://myui.uiowa.edu/my-ui/home.page

C. Affirmative Action Policy

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information on nondiscrimination policies, contact the Director, Office of Equal Opportunity and Diversity, The University of Iowa, 202 Jessup Hall, Iowa City, IA 52242-1316; 319-335-0705 (voice), 319-335-0697 (TDD), diversity@uiowa.edu.

D. Policies and Regulations Affecting Students

All students who enter the College of Nursing are responsible for obtaining a current copy of the University document entitled Policies and Regulations Affecting Students. This document is available on the University of Iowa website at: http://dos.uiowa.edu/policies/. Please refer to this document for questions regarding student rights, student responsibilities, and student organizations at The University of Iowa. Examples of policies that affect students are as follows:

1. Policy on Sexual Harassment and Consensual Relationships

2. Student Records Policy (FERPA)

The Family Educational Rights and Privacy Act (FERPA), a federal law, affords students certain rights with respect to their education records. They are: (1) the right to inspect and review education records within 45 days of the day the University receives a request for access; (2) the right to request the amendment of the education records that the student believes are inaccurate or misleading; (3) the right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent; and (4) the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Iowa to comply with the requirements of FERPA. The address of the Family Policy Compliance Office, which administers FERPA, is 400 Maryland Avenue, S.W., Washington, DC, 20202-4605.

Under FERPA, the University defines the following categories as directory information: name; local address; telephone number; HawkID and electronic mail address; hometown; major fields of study; college enrolled in; dates of attendance, including the current class or year; full-time/part-time status; degrees and awards received; height and weight of members of athletic teams; and
information about participation in activities and sports. The University has authority under FERPA to release directory information regarding a current or former student to anyone without the consent of the student. Directory information not restricted from release by the student is subject to public release and inclusion in the University directory.

In early September, the University will release directory information to a designated publishing company for inclusion in the annual student, staff, and faculty directory. Information included in the published directory includes name; local address; telephone number; hometown; and college enrolled in and current class or year.

Students are entitled to restrict the release of directory information, and former students may restrict address and telephone number. To avoid publication of any or all of this information in the University directory, a request must be submitted no later than 14 calendar days following the first day of classes of fall semester to the Office of the Registrar, 1 Jessup Hall. After the date in which the directory information is released to the publisher, the Office of the Registrar will process requests to restrict the release of directory information but such requests cannot be effectuated with respect to the information sent to the publisher. A request to restrict directory information will remain in effect until revoked by the student in writing.

FERPA permits disclosure of education record information without the student’s consent to school officials who have a legitimate educational interest in the information. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Not all information related to students is defined as education records under FERPA. For example, law enforcement records, medical records, and alumni records are not accessible as education records. Education record information may be released, moreover, under specified circumstances, and the University reserves the right to release student record information without the student’s prior permission as authorized by FERPA. For example, a student’s consent is not required prior to the release of unrestricted directory information or certain financial aid information, or in the case of a health or safety emergency.

Excerpted in part from: http://dos.uiowa.edu/policies/student-records-policy/

E. The University of Iowa Policy on Ethics in Research

Increasingly, cases dealing with academic misconduct have received attention within academic circles and from the press. There have been reports of scientific misconduct, plagiarism, and misuse and falsification of data occurring in some of the most prestigious laboratories and universities in the country. In order to help prevent such cases from occurring at Iowa, the Graduate Council believes that steps should be taken to increase the awareness of faculty and students to their responsibility toward academic integrity. F. Student Disability Policy and Services

https://sds.studentlife.uiowa.edu/accommodations The office of Student Disabilities Services maintains a very complete website. Students who wish to pursue services are advised to plan ahead for the necessary time involved in submitting the Request for Services and follow-up processing to match the individual’s disability with the documentation guidelines.
The mission of Student Disability Services (SDS) is to assure access through reasonable accommodations to qualified students who currently demonstrate a condition producing significant functional limitations in one or more major life activities. Equal access to education is achieved when barriers to learning are removed and students with disabilities are allowed to compete solely on the basis of their academic skills and abilities. In providing academic accommodations to qualified students with disabilities, SDS seeks to promote equal opportunity within the context of a diverse university community through practices that increasingly reflect the mission and values of The University of Iowa.

G. Summer Financial Aid
Beginning summer 2012, if a student has summer financial aid, they must notify the Office of Financial Aid in writing (email or by completing a form in our office) on the day of or prior to reducing their registration. Aid could be reduced or cancelled by a change in registration. Withdrawal calculations have always been performed for students withdrawing in the summer; the change is the need for students to notify the Office of Financial Aid in writing. In some cases, a withdrawal calculation may not be needed if they know the student is returning for a class that starts at a later date.

IX. Resources for Nursing Students (selected)

A. Office of Student Services - 37 Nursing Building, 319-335-7021
The Office of Student Services provides numerous services to College of Nursing students. Graduate Student Services staff is available to meet with students regarding academic affairs via e-mail, phone, or in person.

B. Ombuds Services – C108 Seashore Hall, 319-335-3608, ombudsperson@uiowa.edu
The Office of the Ombudsperson serves students, faculty, and staff and offers informal resolution, mediation, and/or negotiation to constituents. The Ombudsperson explains and clarifies University policies and procedures and urges complainants to follow the regular policies and procedures of the University as outlined in University publications (Operations Manual, Policies & Regulations Affecting Students, staff and faculty handbooks, etc.).

C. Computing Resources - its-helpdesk@uiowa.edu or Online Chat http://helpdesk.its.uiowa.edu/connect/
The College of Nursing and ITS (Instructional Technology Services) maintain an ITC (Instructional Technology Center) in room 40 on the ground floor of the Nursing Building. There are approximately 26 ITC sites on the Campus.

D. Student Health and Wellness – 4189 Westlawn, 319-335-8370 - https://studenthealth.uiowa.edu/
The outpatient clinic at Student Health Service is available to all currently enrolled on-campus students. Visits are free, but charges are made for laboratory procedures, x-rays, accident examinations, and minor surgery. Student Health Service also houses the Health Iowa Program, which provides educational information to students regarding eating disorders, AIDS, and drug and alcohol consumption.

E. University Counseling Service - 3223 Westlawn, 319-335-7294 - https://counseling.uiowa.edu/
The University Counseling Service staff of professional psychologists, social workers, and advanced doctoral students offers educational (learning disability assessment), career, and personal counseling and therapy in individual, couple, or group sessions. It also offers programs, workshops, and consultation activities. Most services are available to students without cost. There is a minimal fee for psychological testing.

F. Student Disability Services – 3015 Burge Hall, 319-335-1462 - http://sds.studentlife.uiowa.edu/
The University of Iowa is committed to making its facilities, services, and programs fully accessible to people with disabilities. Student Disability Services (SDS), located in Burge Residence Hall, provides services to students with both visible and non-visible disabilities. People with a wide range of disabilities are served, including those with hearing and speech impairments, learning disabilities, mobility restrictions, visual impairments, and others. The goal of SDS is to help students with disabilities enjoy the same rights and assume the same responsibilities as do other students. SDS works closely with University faculty and staff to ensure that students receive the maximum benefit from their experience at The University of Iowa. Assistance is provided in the areas of admission, orientation, academic and career planning, academic support services, financial aid, housing, transportation and parking, aide and attendant care, and health services.

G. Office of International Programs – 1111 University Capitol Centre, 319-353-2700 – or 319-335-0335 for International Student and Scholar Services http://international.uiowa.edu

The Office of International Programs provides services and facilities and organizes extracurricular programs for both foreign and domestic students and faculty. It maintains a library with references on study, work, and travel in other countries, including information about foreign universities and study abroad programs open to UI students. It helps students select study abroad programs to complement their on-campus academic programs and helps assure that they receive the correct credit for such activities. Students also may obtain information and applications for the Presidential Awards for Study Abroad and the Fulbright, Marshall, and Tübingen awards at the Office of International Programs.

Foreign student advisers provide information, counseling, and services related to orientation, immigration regulations, financial aid, and liaison with foreign governments and sponsoring agencies, and help with problems and questions in most areas except academic advising. They sponsor or support educational programs, such as the Friends of International Students, the Conversational English Partners, and lunchtime discussions that foster constructive interaction between students and scholars from other countries and their domestic counterparts.

H. Veteran’s Services - 319-384-2626 - http://diversity.uiowa.edu/unit/military-and-veteran-student-services or http://registrar.uiowa.edu/gi-bill

The Office of Veterans Services is part of the Office of the Registrar. It serves veterans, dependents of veterans, servicemen, and servicewomen in matters relating to Veterans Administration educational benefits, University registration, and study at the University.

I. Cultural Centers see Center for Student Involvement & Leadership - http://csil.uiowa.edu

J. Office of Student Financial Aid - 208 Calvin Hall, 319-335-1450 http://financialaid.uiowa.edu/

The Office of Student Financial Aid is available to all University of Iowa students. The office is responsible for counseling students regarding eligibility for aid, for offering general information and applications for financial aid, for processing financial aid applications, and for distributing aid. The office also provides information and listings of part-time employment and College Work Study. Students who have questions regarding financial aid should contact the Office of Student Financial Aid.

The Office of the Registrar determines the residence status of each student, supervises registration procedures, assesses fees, and maintains all students’ academic records. It issues official transcripts and verifications. This site also has links to the University calendars, tuition and fees, as well as current and past catalogs.
I. **Women's Resource and Action Center (WRAC)** - 230 N. Clinton, 319-335-1486 - [https://wrac.uiowa.edu/](https://wrac.uiowa.edu/)
The WRAC provides services to meet educational, cultural, social, and personal needs of University and community women. WRAC advocates the removal of all barriers to equal access and self-determination, including barriers of racism and classism as well as those based on physical ability, sexual preference, and gender. Through its feminist programs and services, the WRAC staff is committed to empowering Iowa women through providing information, skills, and support.

The WRAC provides a resource for many women's organizations; sponsors a Brown Bag Luncheon program; offers evening and weekend workshops, lectures, films, and classes; provides a wide variety of support and discussion groups for women; offers one-to-one problem-solving sessions for women; and publishes a newsletter nine times a year.

The WRAC houses the Sojourner Truth Women's Resource Library of books and periodicals on a wide range of women's topics. For persons dealing with sexual harassment and other forms of discrimination, WRAC acts as an advocate and provides emotional and informational support. WRAC maintains an information and referral system, a speakers bureau, and an active volunteer program.

M. **Rape Victim Advocacy Program (RVAP)** – 332 S. Linn St. - [http://rvap.uiowa.edu/](http://rvap.uiowa.edu/)
Crises Line: 319-335-6000 or 800-228-1625
Iowa Sexual Abuse Hotline: 800-284-7821
Business Line: 319-335-6001

The RVAP maintains a 24-hour emergency telephone line providing information, support, and advocacy for victims of sexual assault or abuse. RVAP works to educate the public about the causes and prevention of sex crimes.
