Congratulations to our Outstanding Students!

- **Lisa Decker** (DNP student, Advisor Kerri Rupe), was selected to present a poster at the STTI Leadership Connection 2014. Her abstract is titled “A Partnering Performance: Improving the Care of Chronic Heart Failure Patients in the Primary Care Setting.”

- The **9th Annual Summer Undergraduate Research Conference** was held last Wednesday, July 30, 2014 at the IMU and showcased the research projects of students participating in the Iowa Biosciences Advantage (IBA) program, the Iowa Center for Research by Undergraduates (ICRU), and the Young Scientists Program here at the CON. The following Nursing undergraduate students presented posters. As soon as the window installation is complete in the ONRS suite, we plan to display their posters in the hallway, so please stop by to learn more about their projects!

Research Computer Lab: Here’s what we have

A reminder that the ONRS maintains licenses for several statistical software packages on the machines in the **Research Computer Lab** (137 CNB). These computers are open to CON faculty, students and staff. If you plan to travel in to use a machine, please check the 137 CNB Outlook Calendar first to make sure the lab is not reserved for a class or workshop. Computers in the lab are labeled #1-5 and software is spread out on different machines to maximize access. A license for Comprehensive Metaanalysis (CMA2) is coming soon. A big thank you to **Justin Pooley** and **Scott Shaw** for all their help with keeping our lab up to date!

- Computer #1: NVIVO 9
- Computer #2: NVIVO 10
- Computer #3: Excel QI Macro
- Computer #5: Hierarchical Linear Modeling (HLM)

What is an ORCID? (hint: it’s not the flower)

ORCID stands for Open Researcher and Contributor ID. This is one of several Unique Author Identifier systems that assign an identifying number to an author, allowing others to search for someone without pulling up others with the same name. It addresses the Name Ambiguity problem that arises when two authors have the same name or when a citation style uses first initials (e.g., Marianne Smith and Michael Smith both become M. Smith). To make sure your papers—and only yours—are attributed to you, please go to http://orcid.org/ to obtain your unique ORCID identifier. This number can be included on your CV (see this example). ORCID is favored over other systems because it is independent of a publisher and aims to be a central registry. To learn more about ORCID’s merits vs. other systems, go here.

2014 CON Grantsmanship Workshop Booster

We will be holding a follow-up to our Grantsmanship Workshop on Monday, August 25, 1-2:30 PM in 133 CNB. Folks who attended the May workshop will be sharing an update on their progress and future plans for the proposals they worked on in May. Recordings from the workshop presentations are available here (click on the links in green): http://www.nursing.uiowa.edu/sites/default/files/documents/research/2014-CON%20Grantsmanship%20Workshop%20Schedule.pdf

First Research Forum - September 9, 2014

Our first Research Forum for 2014-2015 features a double-header of CON faculty: Sue Gardner will present the Research Forum at 11 AM on “Decoding the microbial burden of chronic wounds.” At noon, the Research Lunch will be given by Victoria Steelman, who will present on “The Gap Between Compliance with a Quality Performance Measure and Positive Patient Outcomes.” All are welcome to come!
