New Funded Grants - Ann Marie McCarthy

Sandy Daack-Hirsch and Carolyn Colvin, a colleague in the College of Education, were awarded an Obermann Center for Advanced Studies Interdisciplinary Research Grant for their project, “The Intersection of Education and Health in Two Rural Immigrant Iowa Communities.” This grant provides summer support for the two of them to work intensively together at the Obermann Center to write a grant proposal. Over the summer, they will draw on and extend relationships with community partners who will be instrumental in writing a community engaged research (CEnR) grant in response to the NIH FOA Education and Health: New Frontiers. Congratulations, Sandy and Carolyn!

Congratulations to Larry Newman! Larry, and a colleague from the College of Dentistry, Howard Cowen, received a grant from Delta Dental to carry out a pilot program bringing together NP primary care and dental care. Titled “Nurse Practitioner Led Primary Care in a Geriatric/Special Needs Dental Clinic,” this interprofessional project will develop a practice and education partnership to bring chairside, nurse practitioner-led primary care to the University of Iowa's College of Dentistry. The “practice within a practice” will improve both dental care and healthcare access and hopes to provide primary care and bridge patients to primary care providers in their community. This will be done by providing underserved low-income geriatric and adult special needs populations the opportunity to receive both oral health care and access to a adult/geriatric primary care nurse practitioner at the same visit. The dental and nurse practitioner students will be given the opportunity to develop inter-professional collaborative practice competencies. Congratulations, Larry and Howard!

Thoughts on Manuscript Development Needs

The ONRS is interested in hearing from faculty about their needs for support in the area of manuscript development. Please click on the link below to complete a very brief survey to help us to optimize support in this area: https://uiowa.qualtrics.com/SE/?SID=SV_dgJo91HJb6u1OCx

The survey will remain open until 11:59 PM on Sunday, December 18, 2016. Thank you in advance for your participation! If you have any questions, please contact Linda Hand (linda-hand@uiowa.edu).
Update on NIH Appendices – Nancy Goldsmith

NIH (along with AHRQ and NIOSH) has once again tightened what is allowed in appendix materials for submitted applications. This means that applicants can no longer include some items previously allowed, such as manuscripts accepted for publication and full-size copies of figures that were in the application itself. The guidance below gives specific details of the new policy and the ONRS will be vigilant in assuring that disallowed items are not included in your appendices.

Beginning with applications submitted to the NIH, AHRQ, or NIOSH for due dates on or after January 25, 2017, the only allowable appendix materials are:

*For applications proposing clinical trials (unless the FOA provides other instructions for these materials):*
  - Clinical trial protocols
  - Investigator's brochure from Investigational New Drug (IND), as appropriate

*For all applications:*
  - Blank informed consent/assent forms
  - Blank surveys, questionnaires, data collection instruments
  - FOA-specified items.
  - If appendix materials are required in the FOA, review criteria for that FOA will address those materials, and applications submitted without those appendix materials will be considered incomplete and will not be reviewed.

**Consequences for submitting disallowed appendix materials**

Applications submitted for due dates on or after January 25, 2017 will be withdrawn and not reviewed if they are submitted with appendix materials that are not specifically listed in this Notice or the FOA as allowed or required.

Research Forum & Lunch – December 13, 2016

Our final Research Forum and Lunch for 2016 will take place on **Tuesday, December 13, 11-1 PM in 133 CNB.** For the Research Forum, **Prakash Nadkarni** (Research Professor, ICTS) and **Todd Papke** (Technology Innovations Scientist, CON) will present on “Data Extraction from EPIC: What you Need to Know.” For the Research Lunch at noon, **Melissa Lehan Mackin** (Assistant Professor, CON) will present on “Developing and testing a measure of sexual health knowledge.”

Lunch will be provided and CEU's are available (.12 CEUs for each presentation, for a total of .24 per month). Everyone is invited to attend!

The complete fall schedule is available at [http://nursing.uiowa.edu/research/events](http://nursing.uiowa.edu/research/events). To access recordings of past research events, please visit: [http://nursing.uiowa.edu/research/past-forums](http://nursing.uiowa.edu/research/past-forums)
CON Publication Spotlight – December 2016

This month completes our first cycle through our list of CON faculty for our monthly Publication Spotlights! We have focused on showcasing recent publications (dated 2015 or 2016) by 5-6 CON faculty each month. In 2017, we plan to continue the spotlights by again randomly selecting faculty each month and searching Scopus, PubMed and CINAHL to locate recent publications (dated 2016 or 2017). Faculty are not required to send us anything, but if you have a new publication that is not yet indexed, please feel free to forward the reference to Linda Hand. At the end of each update will be a list of faculty whose work will be shared in the next month’s spotlight.

In the spotlight for December 2016: Laura Cullen. Hard copies are now being posted on the 4th floor on our new “Like it? Take it!” bulletin boards. We hope this will be a fun way for everyone to read about and catch up on each other’s current projects.

Note: Names of CON students (or former students) are underlined.

COMING NEXT MONTH: Faculty to be featured in the January 2017 ONRS Update: Cormac O’Sullivan, Ann Marie McCarthy, Kenneth Culp, Wen Liu and Andrea Achenbach

Happy Holidays from the ONRS!

Ann Marie, Toni, Linda H, Maria, Nancy, Dianne, Yelena and Todd
