Congratulations: New Funding Awards!

Congratulations to **Stephanie Gilbertson-White** who was awarded an Iowa Cancer Consortium (ICC) Concept Grant for her project titled “Acceptability of Using Telehealth Technologies as part of Cancer Symptom Management Program in a Community Cancer Clinic.” The primary goal of the project is to obtain stakeholder input on the acceptability of web-based nurse coaching program to manage cancer related symptoms. The long-term goal of this project is to develop a telehealth intervention for the management of cancer related symptoms that can be used across the state of Iowa in community cancer clinics.

We are also pleased to announce that in 2016 Drs. **Amany Farag** and **Wen Liu** will receive an Old Gold Summer Fellowship (OGSF). The Old Gold Summer Fellowship is a faculty development program established in 1997 by the Office of the Provost that provides new probationary tenure-track assistant and associate professors who have nine-month appointments funding for summer work on an approved developmental project within the first three years of their appointment.

Congratulations to Stephanie, Amany and Wen!

How do I request Research Access to EPIC?

Do you need to review patient records in EPIC for recruiting purposes? Here is the process for requesting Research Access to EPIC. **Lucie Hulse** is the CON point person for submitting requests to Health Care Information Systems (HCIS) at UIHIC for EPIC access. However, folks needing access for research purposes are asked to work with **Linda Hand** (linda-hand@uiowa.edu) first to complete some additional steps specific to research access that were designed to expedite your request being fulfilled by HCIS:

1) The PI of the study should contact Linda Hand to make a request and fill out an online form that collects study details and justification of the need for access.
2) The research team will need to add Linda Hand as a delegate on the project’s IRB application so that good IRB standing can be verified and monitored.
3) Individuals who will be accessing EPIC must do the following:
   a. Complete HIPAA Privacy Training via the online ICON course available through Employee Self-Service. A pdf copy of proof of completion must be forwarded to Linda Hand.
   b. Sign and return a HIPAA Attestation form (we have these) to Linda Hand.

We hope this clarifies the process for researchers needing EPIC access. If you have any questions, please contact **Linda Hand**.
CON Research Forum: November 10, 2015

Our next monthly Research Forum and Lunch of the 2015-2016 school year will take place next week on Tuesday, November 10, 2015 in 133 CNB. For the 11 AM talk, we are delighted to welcome Drs. Laura Cullen from the UIHC Department of Nursing, Priya Pennathur from the College of Engineering and Toni Tripp-Reimer (CON). They will present on “Cognitive Work Associated with Evidence-Based Pain Management.”

For the Research Lunch at noon, we will present a “Data Blitz” in which faculty report an update of their CON Dean’s Awards projects. Drs. Anne Ersig (Biological, Psychological and Social Factors Associated with Self-Management in Emerging Adults with Chronic Conditions), Patricia Groves (Assessing the Feasibility of a Patient-Safety Simulation Experiment) and Melissa Lehan Mackin (Levels and Gaps in Sexual Health Knowledge for Adolescents with Autism). All faculty, staff and students are welcome!

The complete Research Forum schedule for 2015-2016 is available here: http://nursing.uiowa.edu/research/events
To access recordings of past research events, please visit: http://nursing.uiowa.edu/research/past-forums

CON Publications (received since the October ONRS Update)
Names of CON students are underlined.

To continue to allow us all to share in your good news, a reminder to please send Linda Curran (linda-curran@uiowa.edu) citations of articles that you have had accepted for publication as well as pdf copies of the articles. We will include these in our monthly updates and display the articles themselves on the 4th floor (by the elevators).
